

Collecting New Patient Demographic Information

To meet Washington State Department of Health requirements and to provide equitable care to all patients, Mid-Vally Hospital is required to ask questions that may be new to you.

You are not required to answer these questions.

While reporting demographic data to the state is mandatory for hospitals, patient participation is voluntary.

YOU GET TO DECIDE: It's up to you whether you answer these questions. We must ask these questions to be compliant with Washington State law (HB 1272) but you are not required to answer them. For questions you do not wish to answer, you can reply with a Decline/Pass answer. Your answers are voluntary.

We want everyone to feel safe answering questions and declining to answer questions.

WHY WE ASK: Your answers to these questions will assist in identifying and addressing health disparities in Washington State.

If you believe Washington State's Engrossed Second Substitute House Bill (E2SHB) 1272 (WAC 246-455-025) violates your rights or you have specific questions regarding this law, please contact your legislative representative or Washington State Department of Health at **CHARSGeneral@doh.wa.gov**.

If you believe Mid-Valley Hospital is noncompliant with this law or your rights have been violated due to discriminatory action or bias, please contact the **Mid-Valley Hospital Compliance Officer at 509-861-2443**.

BELOW ARE SOME QUESTIONS YOU WILL BE ASKED DURING SCHEDULING/ REGISTRATION:

What is your legal sex?
